

New Program at HIM

Research in Groups

The idea of this program is to give groups of between 4 and 10 people the chance to carry out research at the Institute. We are open to a very flexible use of this program. What we don't want is just a workshop. The intention should be towards new research. Interaction between the participants should be central and an application should make clear how this can be successfully achieved. Duration of a program can be up to three months and not shorter than one month (which in exceptional cases can be divided into two halves).

Applications can be sent in at any time by email to the Director of HIM, Prof. Dr. Matthias Kreck (kreck@him.uni-bonn.de). They should include the following information about the proposed research: clear description of intention/goals, indication of expected outcomes, proposed dates and timeline. Please also submit the CV and list of publications for each group member.

The stay will be fully financed by the Institute.
